Introduction

The program requires Microsoft .NET Framework version 4.0 or later. In most cases your PC will have the Framework already installed; if not, .NET Framework is freely downloadable from the Microsoft web site.

The Mathwiz Calculator software license is free for personal, educational and small-business use. Companies with more than three (3) users require a paid license.

The program is supplied without any warranties or guarantees. Always double-check the calculations for correct input and correct computation.

- Geometry - Triangles (Right angles)
- Geometry - Triangles (Irregular)
- Geometry – Arcs

Operation

The functions are generally user intuitive. Numbers and operations can be entered on the screen or on the keyboard. Always check the results for reasonableness.
